

HCV FAQs

(Frequently Asked Questions)

May 28, 2013 Update

Question: How long will I be on a wait list once I apply?

Answer: That will depend on multiple factors and the wait lists for which you applied.

Your positions on the HCV wait lists will depend on how many preference points you have. Your preference points are based on factors such as:

- if you are a resident or work in Sacramento County,
- if someone in your household is disabled,
- if you are rent burdened (the amount of rent you currently pay compared to your income).

Preference points vary for different HCV wait lists.

Your positions on Conventional Housing (CNV) wait lists depend on the date and time that you applied for each CNV wait list.

The frequency and volume of applicants selected from the wait lists vary as well depending on the number of families exiting the program, making way for new program participants.

The best way to insure that you are selected as quickly as possible is to sign up for all wait lists for which you qualify and are interested.

Please notify SHRA in writing within 30 days of any changes to your household, such as:

- a change of address,
- addition or removal of household members, and
- an increase or decrease in income.

Please also provide SHRA with your email address.

To sign up for any wait list, please visit www.sacwaitlist.com.
