***The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

SERA Spotlight

"First I'd like to thank everyone working for the program! I can't thank you enough for your promote and friendly service. The SERA program assisted me with helping to pay my past due rent. I was really afraid of me and my 14 yr old son losing our home. Thank you so much for your help!" ~ Tenant
